To Whom It May Concern,

I am pleased to recommend The Inline Group (TIG) to any medical facility seeking to hire physicians or midlevel providers. I have worked with TIG for almost one year and I am extremely pleased with the results.

We are a larger FQHC system with 11 locations in the Finger Lakes Region of New York State. TIG currently supports dentist, physician and midlevel openings for us in 3 main locations; Penn Yan, Ovid and Port Byron. All three locations are rural communities with population averages of less than 5,000.

Like many facilities, we have a tough time identifying candidates. I feel that TIG offers the best solution to help communities like ours find the right providers for a reasonable cost. They use a variety of resources to help us get the word out and my Account Manager, Jennifer Ostman has been terrific to work with. Communication is consistent and the activity Jennifer has created for us has been really good! We started working with TIG at the end of January and had our first submittal for a Nurse Practitioner at the beginning of February. We hired that provider in March, and true to TIG's model there were no additional fees for successful placement.

I feel that TIG brings an honest and effective model for provider recruitment. I will continue to utilize their services for all of my primary care and midlevel needs.

Sincerely,

Jill Rapp
