RE: Letter of Recommendation

It is my pleasure to recommend the marketing services The Inline Group offers for primary care and advanced practitioner recruiting needs. Foremost Family Health Centers entered into a partnership with The Inline Group at the end of July and we were able to hire our first provider within a month and are in conversations with several additional providers.

I am extremely pleased with the campaign and the steady flow of candidates received to date. This unique process has allowed us to consistently engage with highly qualified providers. The team at The Inline Group makes certain our opportunities are presented in the best possible light and ensures we receive provider information matching our specific mission-minded needs.

We look forward to continuing our partnership and enjoying our success in finding primary care providers with The Inline Group.

Sincerely,

A handwritten signature in black ink that reads "Mary Foster".
