**To Whom It May Concern:**

Project Health, Inc. (PHI), dba Langley Health Services (LHS), is pleased to unequivocally endorse the recruiting program developed and implemented for us by The Inline Group. The staff has been a true pleasure to work with and our recruiting needs for primary care have been well met. We have retained three physicians through these efforts, including our medical director, a board certified pediatrician and a board certified family practice physician who will also serve as faculty for our GME initiative with Ocala Regional Medical Center.

I have had the opportunity to work with several provider recruiting agencies over my career, dating back to 1992. The Inline Group has delivered candidates that, individually and collectively, have consistently met or exceeded our expectations. In terms of performance and cost effectiveness, they have blown away the competition in my experience set.

We appreciate the work done by the folks at The Inline Group and encourage you to strongly consider them as a viable solution for your primary care recruitment needs.

Very truly yours,
