To Whom It May Concern:

I am pleased to recommend The Inline Group to other medical facilities for their physician and advanced practitioner recruiting needs. We have only worked with them for a short period of time but have already had great success.

I can attest to the quality of work provided by The Inline Group and Molly Headd. From the first posting of my opportunities, I began to see results. I am impressed with the quality and quantity of candidates that she has presented for our consideration.

Due to the screening provided by The Inline Group, the candidates presented to me have already been educated and prepped on our opportunities ensuring that each is a viable candidate for me to reach out to.

In addition, Molly has been very diligent in following up with us on a consistent basis to make sure that the candidates are meeting our expectations and that our posted opportunities are current and up-to-date.

I feel using The Inline Group has been an effective and productive model for our provider recruitment efforts as well as being a cost-effective alternative to the traditional sources of provider recruiting.

Sincerely,
