August 27, 2015

To Whom It May Concern:

I am pleased to recommend the services of The Inline Group to other medical facilities for their primary care physician and advanced practitioner recruiting needs. Ocean Health Initiatives, Inc. ("OHI") in Lakewood, NJ has been working with Shirin Virani at The Inline Group since April 28, 2015. Within four months, we have experienced success with their recruitment services, as promised.

Recurrent services that we have grown accustomed to include being sent candidate leads on a continuous basis; which means that we are able to consistently engage with providers that meet our qualifications through phone interviews to on-site interviews. OHI has already hired two providers through The Inline Group's services and we have several interviews scheduled for the coming months. We find that The Inline Group and their representatives are professional and unproblematic and the team we work with is diligent to market and source valuable candidates.

The management team at OHI is happy to endorse the recommendation of The Inline Group and will continue to use The Inline Group should they expand their model beyond primary care.

Sincerely,

Mirta Garcia
Director of Human Resources
Ocean Health Initiatives, Inc.
