

When two of our long time providers made the decision to retire within weeks of each other, we knew we were in for a challenge. We tried several recruitment strategies including working with your typical recruitment firm. Unfortunately, the recruitment firms faced the same difficulties we did and were often unsuccessful in finding us a match.

Then we discovered the Inline Group at a CHCANYS conference. They were able to do for us what other recruitment firms couldn't: match us with a candidate and did it in less than three weeks!

That is because the Inline Group is not like any other recruitment firm. They are unique in many ways. The Inline Group is able to attract candidates with their mobile application, Tigma. Our designated account manager took the time to work with us in developing our custom recruiting webpage. It was up and running in less than two days. Marketing reports are delivered to your inbox and include webpage traffic data.

Our newest recruit will start in a few weeks and will be a welcome addition to our team of providers.
