RE: Letter of Recommendation

To Whom It May Concern:

We have been using The Inline Group for a few years now and we have been extremely impressed with the support they provide in advertising and promoting our primary care positions. In particular, the website is user and mobile-friendly for candidates searching for practice opportunities by specialty or location. Information about our organization and current openings is listed in a concise and well-organized manner, making it very easy for candidates to review and consider each opportunity.

Beyond promoting our opportunities, The Inline Group follows a streamlined process of screening candidates prior to sending them over for consideration. Our account representative notifies us via email when a candidate has expressed interest and includes a summary of information gathered through the screening process, along with the candidate's CV. Each month, we receive a report that includes activity related to candidate referrals and statistics on email campaigns The Inline Group has sent, on our behalf, promoting our opportunities.

Through our partnership with The Inline Group, we've met some great candidates and some who have converted to great hires! We value and appreciate the level of service and quality of the products offered by The Inline Group. Above and beyond the products and services, we have been impressed with the level of engagement of our account representative. He is responsive, personable and always there to help.

Without any reservations, we recommend you consider partnering with The Inline Group in your efforts to recruit highly talented primary care providers. Please feel free to contact me at 509-865-6175, ext 3608 or at JacquelineBa@yfwc.org if you require additional information about our experience with The Inline Group.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jackie Bañuelos".
