The Inline Group Chosen to Speak About Mobile and Digital Technology

The Inline Group (TIG), the leader in change, technology, and transparency has been asked to speak at a variety of conferences in 2017. Kelli Mulloy, Mike McDaniel, and Chris Mathew will speak at an assortment of conferences on the topics of mobile recruiting and digital technology.

These conferences include: UCAOA Urgent Care Convention & Expo in National Harbor, MD, IRHA Annual Conference in French Lick, IN and MAPRA Annual Education Conference in Philadelphia, PA. We also lead a round table discussion at SEPRA Educational Conference in Atlanta, GA.

These organizations recognize the benefits to be attained by increasing the use of technology and mobile recruiting to help their members.

TIG is proud to be a leader in recruitment technology.
